PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience specializing in React Native, Next.js, and Node.js for building scalable web and mobile applications. Proven track record in delivering production-grade CRM systems, mobile apps, and enterprise solutions. Expert in system design, RESTful API development, and responsive UI/UX implementation using modern frameworks. Successfully led development of 10+ live projects including dietitian management, sales automation, and inventory tracking systems.

TECHNICAL SKILLS

Frontend: React.js, React Native, Next.js, Tailwind CSS, Responsive Design, Redux

Backend: Node.js, Express.js, Nest.js, RESTful APIs, Serverless Architecture

Database: MySQL, Sequelize ORM, Database Design & Optimization

Cloud & Tools: Google Cloud Functions, Git, GitHub, API Integration, System Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer

Hobit Technology | Jan 2024 - Present

- Architected and developed company's flagship mobile application from scratch using React Native Expo with API-less architecture, reducing server dependencies by 40% and improving app performance by 35%
- Built comprehensive Dietitian CRM managing 50000+ clients, featuring automated appointment scheduling, health data tracking, diet plan management, and intelligent call reminder system
- Designed and implemented Sales CRM for BDA teams, streamlining lead management and improving conversion rates by 25% through automated tracking and analytics
- Managed scalable backend infrastructure using Google Cloud Functions, implementing serverless architecture that reduced infrastructure costs by 30%

Full Stack Developer

Indian Robotics Solution | Jan 2023 - Feb 2024

- Led end-to-end development of 5 production applications using React, Node.js, Express, and Nest.js, serving 1000+ users
- Designed and implemented complete system architecture for HR Management System with AI-powered photo-based attendance tracking and automated salary calculation
- Developed Inventory Management ERP with barcode scanning technology for drone parts, reducing stock management time by 60%
- Created Drone Repair Tracking System with WhatsApp API integration for automated status updates and invoice delivery, improving customer satisfaction by 45%

Backend Developer Intern

Quixgo PVT | Oct 2022 - Jan 2023

- Built robust backend infrastructure using Node.js, Express, and MySQL with Sequelize ORM for e-commerce platform
- Integrated 8+ third-party APIs including payment gateways and logistics services, enhancing platform functionality and user experience

KEY PROJECTS

Hobit Mobile App | *Hobit Technology*

- Rebuilt mobile app from ground up using React Native Expo with API-less architecture for offline-first functionality
- Integrated AI-powered Diet Tracker and custom 3D onboarding experience, increasing user engagement by 50%

Drone Service Center Portal | *Indian Robotics Solution* | droneservicecenter.in

- Developed full-stack repair tracking system with customer portal, management dashboard, and technical team interface
- Implemented WhatsApp API for automated repair status notifications and PDF invoice delivery, reducing customer inquiries by 40%

VersusTyping | *Personal Project* | versustyping.netlify.app

- Built interactive typing speed application with React featuring real-time WPM tracking, error highlighting, sound effects, and 5 game modes

EDUCATION

Master of Computer Application (MCA)

Amrita Vishwa Vidyapeetham | Oct 2021 - Oct 2023

Bachelor of Business Administration (BBA) - Finance & Banking

Manav Rachna International University | Aug 2018 - May 2021
